

# SHORT OF AMMUNITION IN THE CITY OF MEXICO

## Rebels Are Much Elated Over the Prospect Of An Easy Conquest

### PLACER FIELDS OF BATTLE MOUNTAIN ARE ALMOST TIED UP BY LITIGATION

C. A. Harrington, recently of Elko, where he conducted a large saddlery store, is visiting in Tonopah for a few days. He carries fourteen nuggets that weigh ten ounces and are as pretty as anything of the kind gathered in California. They are a bright yellow and are worth \$17 an ounce. They show marked abrasion, but they are all of good size and are said to be fair samples of what is found in the new placers near Battle Mountain.

The strike was made by C. M.

### BUILDING BLOWN UP DURING PROGRESS OF FIRE

TWO SCORE PEOPLE REMOVED JUST BEFORE EXPLOSION HAPPENED.

(By Associated Press.) GRAND RAPIDS, Mich., Nov. 29.—Forty men, women and children were taken by firemen from the second story of a burning building this morning a minute before an explosion of gunpowder, dynamite and gasoline scattered the structure over an area of four blocks. A score or more spectators and a dozen firemen were burned and cut by flying debris. One man was fatally injured. Loss, \$95,000.

### SEVEN TROUGHS COALITION FINDS THE LOST VEIN

WAS PICKED UP IN CROSS-CUT OFF WINZE FIFTY FEET BELOW TENTH LEVEL.

The new ore body found in the Seven Troughs Coalition was picked up about fifty feet below the tenth level by a winze sunk in the foot-wall, says a report from the property.

There seemed to be what the report calls a "jumbled up mass" for some distance between where the vein was lost and the point at which it was picked up again.

The present showing is identical with that above, where the vein was regular, persistent and highly mineralized close to a thousand feet. That the vein is the same as that above, there seems to be no doubt, it having the same dip; the walls are identical in size of vein and ore values. Since getting into the vein they have drifted about twenty feet and have sunk a winze about twenty-two feet, with the vein averaging from two to five feet, eight to ten inches of which on the hanging wall will average \$650 a ton. The balance of the vein is of good milling ore, running from \$5 to \$25 a ton. The vein seems to be getting stronger and richer as the development work progresses, the walls being true and regular.

### MEXICAN LOVER SLAYS YOUNG INDIAN GIRL

ELKO, Nov. 29.—Bessie Andy, a pretty young Indian girl, had her throat cut last night by Jose Salgu, a Mexican, who was in love with her. There were five bad slashes on the girl's body and she died immediately. The stabbing took place in front of the Bakery saloon, the busiest spot in town.

Christler and J. Estes, who were working quartz claims, and considerable gold was taken out before the news got out," said Mr. Harrington. "Then the miners began sifting in ones and twos, until at present there are about a hundred men washing gravel. The original location and a large slice of the territory is involved in litigation started by the Glasgow Western, the company that built the old smelter at Golconda. I don't think they procured patents for this ground, but the ownership is a matter that will have to be determined by the courts. The first strike was made 22 miles southwest of Battle Mountain and every foot of ground for a distance of 20 miles has been taken up.

"Recently a strike was made in Box canyon, and there is considerable activity in Galena canyon, where there are a number of quartz propositions. One of these, I understand, has been optioned for \$40,000. Wilson canyon also has some good showings in the placer line. There is no water in the vicinity and the custom has been to haul the dirt to water, a distance of five miles, and there is no doubt but that a pipe line will be installed if the litigation is disposed of soon. I do not look for much development during the trial of the suits for control, so owners of late claims must look for a long period to elapse before they can handle pay dirt from Copper canyon."

### POWER COMPANY AUTO STALLED ON THE ROAD

NO ASSISTANCE FROM AQUEDUCT EMPLOYEES WHEN SOLICITED.

Mr. and Mrs. A. B. West, Mr. and Mrs. H. R. Day and A. S. Cooper, with William J. Young as chauffeur, visited Bishop over Sunday from Riverside, says the Inyo Register. The gentlemen are, respectively, vice president, purchasing agent and assistant treasurer of the Nevada-California company. Their trip was varied by an unpleasant experience below the Halvee dam, where the ground underlying the road they followed had become soaked underneath by seepage. Their heavy car broke through the upper crust and bogged. The men tried until 10:30 p. m. to get the car out, then went to the aqueduct foreman's camp for help. They told him there were ladies in the car; that made no difference to him—"too cold to get out—nothing doing." The two ladies in the party were compelled to sit in the car all night, while the men made themselves as comfortable as circumstances would permit on the ground nearby. Mr. aqueduct man had absolutely no intention of being hospitable. The next day was spent in efforts to pull out, with some grudging aid from the foreman, and help cheerfully volunteered by a man from Brown who was using his own team for aqueduct work. During the day Mr. Cooper asked for permission to use the aqueduct phone line to secure help from Lone Pine, but was refused. He had to go to the Interstate line and cut the wire, so as to attach a portable set. A machine came from Lone Pine and took some of the party. In the meantime the foreman had said "Let 'em alone" a few times, but ultimately said his men could help if the shipwrecked party would fix it with them.

The second morning Billy Young asked the foreman what he would take to get the car out. "Fifty dollars," was the reply. Mr. Foreman got his money, and with six horses pulled the car to solid ground.

### BIG LIVESTOCK SHOW OPENED IN CHICAGO

(By Associated Press.) CHICAGO, Nov. 29.—Valued at \$2,000,000, approximately 11,000 animals were placed on exhibition today at the opening of the international livestock exposition.

### Crazy Patients Attack Guards

By Associated Press. UKIAH, Nov. 29.—Three patients in the violent ward of the state hospital escaped last night after overpowering two guards and injuring them so they may die. One was captured and a posse is searching for the others.

### SOLDIERS CLEAR STREETS AT POINT OF BAYONET

MILITARY PRISON FILLED WITH INDIGNANT TOWNS-PEOPLE.

(By Associated Press.) ZABERN, Nov. 29.—Forty townspeople, including several civilian officials, are in military prison as the result of a night of rioting. Several times German troops cleared the streets at the point of the bayonet. The demonstration was designed to express indignation over certain insulting remarks recently made by an army officer. Excited by repressive measures, the townspeople assembled in the public square. An officer with 50 soldiers appeared. The soldiers loaded their rifles and prepared to fire. An officer bade the crowd to disperse, and the people scattered, pursued by soldiers, prodding them with bayonets. Several citizens were injured.

### EXTREME CRUELTY IS THE COMPLAINT

ROUND MOUNTAIN WOMAN SUES FOR SEPARATION FOR CONTINUED BRUTALITY.

Ruth Marie Taft, through her attorney, Thomas K. Chambers, has filed suit in the district court for absolute divorce from Elias Henry Taft on the grounds of extreme cruelty. Mrs. Taft resides at Round Mountain and the couple have been married since November 24, 1908, when they were united at Alliance, Neb. One child is the result of the union and the mother asks for the custody. The complaint charges that the husband frequently struck his wife with his fists, accused her of infidelity and applied vile names, and during the time she carried her baby she avers that Taft kicked her in the abdomen and otherwise maltreated her.

### COMPANY REORGANIZES ON AN ASSESSMENT BASIS

C. C. Boak and Roger P. Stenson have incorporated the Manhattan Mines company to succeed the Manhattan Consolidated Mines company. This is for the purpose of bringing about an assessable plan of operation. Articles of the Mason Pass company have been filed with the secretary of state, with a capitalization of \$1,000,000. S. H. Brady, C. F. Stevens and G. R. Blair, who are all connected with the Tonopah West End, are the incorporators.

### DISCOURAGING REPORTS ABOUT BISHOP ROBINSON

Reports from New York, where the Rt. Rev. H. D. Robinson, bishop of the Episcopal missionary diocese of Nevada, is under medical care, are not reassuring. Although his condition is not described as acute, no general improvement is noted, and the prospect of his early return to Nevada is remote.

### CONTRACT FOR HOSPITAL.

W. O. Dresser has contracted to supply the Mine Operators' hospital with furniture from a largely selected stock, which he will install as soon as the new building is finished.

### GOLDFIELD MAN LOST IN HILLS IN HUMBOLDT RANGE

PARTNERS ARRIVE AT ROCHESTER WITHOUT HIM THREE DAYS AFTER HE LEFT.

ROCHESTER, Nov. 29.—Two searching parties, hurriedly organized on Thanksgiving morning, are scouring the peaks and canyons of the Humboldt range seeking for Barney Hage, who left Rochester four days ago for Copper Kettle, 30 miles distant. Grave fears are entertained for Hage's safety. He is believed to have missed his way and to have either met with a mishap or to be wandering about, without water or provisions, far from any possible aid.

Hage, who is well known at Goldfield, Blair and elsewhere in Nevada, had just made his first shipment of ore from the property at Copper Kettle, in which he is interested. He left Rochester Monday morning to return to camp, and expected to meet his two partners on the way.

Hage's associates reached Rochester Wednesday night, three days after he had left, reporting that they had not met him nor had they seen any trace of him. Their failure to pass him on the road aroused instant alarm and steps were immediately taken to start a search.

Two parties left Rochester Thanksgiving morning. One was in charge of Deputy Sheriff Otis Storm and the other in charge of Clarence Kirk. They divided, each party taking a section of the country to one side of the trail to Copper Kettle, and they are now pursuing the search as vigorously as they are able.

Hage was a former proprietor of the Hoffman bar at Goldfield, being owner of the establishment in 1905. Afterwards he conducted a barber shop at Blair.

### TO BREED PIGS ON HIS RANCH AT PINE CREEK

W. S. JOHNSON RECEIVES A FINE PEDIGREE PORKER FROM GEORGE WINGFIELD.

A fine Berkshire boar from the herd owned by George Wingfield, and raised on his ranch at Lassen, Cal., has been received here by W. S. Johnson to add to his registered stock at the Pine Creek ranch, and the animal was sent out Thursday morning by team.

The boar comes from selected stock and was sired by Duke of Scotland and the first dam, Miss McGee. The latter took first prize at the big show of fancy stock at Lexington, Ky., over a big field, three years ago, and is said to be the best of its breed in the country.

### WEEKLY TONNAGE OF TONOPAH MINES

The Tonopah Mining company sent to the mill 2910 tons, the Belmont 3496 tons, the Montana-Tonopah 1110 tons, the Tonopah Extension 1155 tons, the West End 1115 tons, the MacNamara 544 tons, the Jim Butler 350 tons, the North Star 100 tons and the Merger 350 tons, making the total production for the week 11,140 tons, the estimated value being \$265,795.

### HEAVY SNOW IN SIERRAS.

The engineers of the Southern Sierras Power company, who have been in the mountains up Big Pine creek canyon, moved down last week to the second bridge, out of the snow. They report three feet of snow at the lakes. This is thought to be more snow than fell all of last winter. The outlook for water next year is very encouraging.—Inyo Register.

Advertise in the Bonanza.

## British Admiral Notifies Washington That He Will Yield to U. S. Commander

(By Associated Press.) HERMOSILLO, Mex., Nov. 29.—Information received today at constitutionalist headquarters states ammunition is scarce in Mexico City and other points held by the Huerta government. It is asserted that many garrisons in southern Mexico were unable to resist because of this. Carranza's military advisers regard the news as most encouraging.

### STATEMENTS OF EVIDENCE IN REBUTTAL

WEIR CASE DISCUSSED BY ATTORNEYS BEFORE SUBMISSION OF REBUTTAL TESTIMONY.

In the Weir case yesterday afternoon a number of gentlemen prominent in local business circles were called to testify to their knowledge of the standing of Frank R. Weir in business. This morning the jury was excused while the attorneys submitted to the court an outline of their case in rebuttal and Judge Averill will rule on several points of evidence late this afternoon.

Owing to the hearing being protracted longer than expected, the district court notified jurors that they will not be wanted in court until next Tuesday.

The prosecuting attorney asked leave to introduce evidence of other homes and this was opposed by the defense, which contended that the state was endeavoring to bring a lot of other suits when they did not relate to the one at bar. The court ruled in favor of the defense on all but two points.

### CITRUS CROP WILL BE NEARLY NORMAL

WILL DOUBLE THAT OF THE DROUTH YEAR OF 1912.

(By Associated Press.) SAN FRANCISCO, Nov. 29.—Estimates for 1913-14 of the citrus crop, as completed today by the Southern Pacific, shows that southern California will have 33,500 carloads, compared with 15,200 last year. Superior California will have 4500 cars against 2300 last year.

### SUN SPOT WEATHER FOR NEXT MONTH

SANTA CLARA ASTRONOMER FORECASTS STORMS FOR DECEMBER.

(By Associated Press.) SANTA CLARA, Nov. 29.—Father Ricard of the University of Santa Clara, in another forecast today, predicts a wet December for the Pacific coast. The severest storms will be on the 4th and 11th. Others will occur on the 17th, 23d and 30th and January 6th in California and adjoining states.

### ARMY BEATS THE NAVY.

(By Associated Press.) NEW YORK, Nov. 29.—West Point defeated Annapolis, 22 to 9, in the presence of the president and high officials. Forty thousand people witnessed the game.

### MINER IS INJURED.

Thomas Sprecklin, a miner employed at the Florence mine, Goldfield, Thursday morning sustained a fracture of his skull. Sprecklin has a wife and two small children.

WASHINGTON, Nov. 29.—Any developments in the Mexican situation seem to be moving under the surface, as there appeared no change in the diplomatic situation and no indication that the American government is deviating from its attitude of careful watching and patient waiting for the elimination of Huerta.

### PRINCE CON. TO BEGIN STOPPING NEXT MONTH

SEQUEL TO AN IMMENSE AMOUNT OF DEVELOPMENT WORK.

By the middle of December the Prince Consolidated mine will again begin the stoping of ore for the market, according to General Manager Murray C. Godbe, who is up from Pioche for the first time since he took charge of the affairs of the company last September, says the Deseret News. Since the present management went in it has been necessary to do a large amount of development and to put in considerable improvements. For that reason all the ore that has been shipped recently has come from development work alone. The company has been averaging around 175 tons of ore a day, which is being shipped to the International smelter at International, Utah.

A large amount of drifting and cross-cutting has been done in the mine. Within the next three weeks nearly all the cross-cuts will have been completed and the stopes opened up. This will allow a large reduction in costs as compared with what it has been for several months past. The property has been recently equipped with a large, two-story bunk house, with accommodations for 64 men. It has been equipped with every kind of modern convenience. There is also a large reading room. In order to keep a steady crew cottages are being erected for the families of the married men. These are all now practically completed.

Although the Prince does not owe a cent, it has not been accumulating a treasury of any size. The amount of development work and the additional improvements have just about kept the company in the same position that it was in when the report was sent stockholders two months ago. At present the company is physically in better shape than at any time in its history. With the reduced expenses the company can begin to accumulate some dividend money. Expenses, on account of the development work, have been high. This will soon be over with.

Although no definite information has been given out, it is probable that the Prince Consolidated has in the neighborhood of \$25,000 in cash, with sufficient shipments being made to greatly add to this amount between now and the first of the year, at which time it is probable that a statement will be issued to stockholders.

It is understood that the shipment of tailings will be resumed about April 1. These have been the source of considerable revenue in the past but it was necessary to discontinue shipping on account of the smelter having all that it could care for for several months. As soon as these shipments start the earnings of the company will be greatly increased.

### CHECK FORGER CAUGHT BY RENO POLICEMAN

Thomas Phillipson, charged with forgery at Lovelock, was arrested in Reno Wednesday by Patrolman Devincenzi. He tried to work Reno merchants.

No trouble to get anything in the world with a Bonanza want ad.

Official dispatches from Culiacan, capital of Sinaloa, say civil and military heads stated that strict orders have been issued that foreigners' interests be not molested.

Although Rear Admiral Craddock, commanding British warships in Mexican waters, outranks Rear Admiral Fletcher by virtue of seniority, Craddock has notified Fletcher that he wishes to subordinate himself in co-operating with the United States forces.

JUAREZ, Nov. 29.—Nearly 4000 rebels started south today against the federals. General Villa does not know whether the federals have retreated to Chihuahua or were intercepted south of here. He expects to go to the front Tuesday.

### TIN CAN TRUST PLACED UNDER INVESTIGATION

FEDERAL COURT ASKED TO DIS-SOLVE THE TIES THAT BIND.

(By Associated Press.) BALTIMORE, Nov. 29.—Suit was filed today in the United States district court to dissolve the American Can company, the so-called tin can trust. The American Sheet and Tinplate company was made defendant because the government alleges that contracts for a preferential agreement exist between the two companies.

### RETURNS TO TONOPAH AFTER HER DIVORCE

MRS. GOODFRIEND COMES BACK AND TAKES APARTMENTS AT THE A. B. C. HOTEL.

The former Mrs. Jake Goodfriend is again a resident of Tonopah, having come back from Goldfield during the past week. She has taken rooms at the A. B. C. hotel and is suffering from a severe illness.

Mrs. Goodfriend was divorced from her husband, the popular manager of the Exchange theater, Goldfield, and received an alimony \$1750 cash, the old home on Summit avenue, Tonopah, and was allowed to retain her diamonds.

### MALLEY FOR TREASURER.

Nye county's wide-awake sheriff, Ed Malley, has been mentioned as a candidate for state treasurer at the approaching election, but it is not believed that he is seriously considering running for the position. His present office pays him a good salary. He can be his party's candidate for re-election for sheriff if he wants to run again, and it will take an awful strong combination to beat him.—Carson City Appeal.

### \$1,000,000,000 In Diamonds

(By Associated Press.) WASHINGTON, Nov. 29.—The jewelry bill of the United States for 1913 was approximately \$57,000,000, according to statistics of jewelry importers just published. This is 38 per cent in excess of the highest previous record, which was \$44,250,000, for 1906. It is estimated that all diamonds in this country are worth a billion dollars.
